

12/03/10

To whom it may concern;

We have been using Hungry Giant for waste services on all of our job sites across eastern Australia for the past 12 months and have no hesitation in recommending them. SW Thompson Building specialises in retail refurbishment that innately results in masses of waste being produced from each job site.

Before Hungry Giant, we would spend our valuable resources searching for local waste providers for each job and negotiating reasonable rates. This would also involve either opening new accounts, or burning up cash flow to pay for waste services up front. With up to 10 job sites running at any one time, this was becoming a cumbersome task for what is essentially a diminutive part of our business.

Since meeting Chris O'Brien and the team from Hungry Giant, we have successfully implemented a process that has saved us time, money and given us a competitive edge in a sporadic market by reducing our carbon footprint and diverting from landfill. We now have one point of contact for all jobs and process only one invoice each month. No longer do we waste resources negotiating rates with multiple suppliers, as Hungry Giant has proven to be a cost effective leader in the marketplace.

Chris and the team at Hungry Giant have proven to be an asset to our company and I firmly believe they are the smart business choice for everything waste related.

Regards,

Alex Belanszky
